Balance Sheet Composition

Cash Flow Waterfall

Capital Allocation & Cash Flow Intelligence

| Cash Flow Intelligence | Status       |
|------------------------|--------------|
| CFO Quality            | High Quality |
| CapEx Intensity        | Moderate     |
| Capital Allocation     | Reinvestor   |
| Distress Flag          | False        |
| Deleveraging Flag      | False        |

Pros & Cons

| PROS                                                                           | CONS                                                                 |
|--------------------------------------------------------------------------------|----------------------------------------------------------------------|
| • Double-digit three-year revenue CAGR indicates strong business growth.       | • Low ROE indicates weaker returns generated on shareholder capital. |
| • Positive free cash flow indicates cash generation after capital expenditure. | • Low ROA suggests limited profitability relative to the asset base. |
